Womandla Foundation is a Girls and Women led-serving organization in Zimbabwe that seeks to improve the economic well being and quality of life of adolescent girls and women through feminist oriented innovative approaches to promote and protect their rights.

VISION

A Supportive and progressive community that has empowered and well informed Girls and Women.

OUR OBJECTIVES

- To challenge the societal structural inequalities and injustices girls and women face.
- To create Safe Spaces for Girls and Women to meet and strengthen their resilience.
- To educate- curate training and skills development for Girls and Women.
- To support girls and women in achieving their freedom, rights and have control over their lives and bodies.
OUR PILLARS

SEXUAL REPRODUCTIVE HEALTH AND RIGHTS
Our work focuses on Health, inclusion of Key populations and Vulnerable groups in community. We work on HIV, STI, AIDS, TB, Cancer and related Reproductive Health and Rights issues.

CIVIC ENGAGEMENT, LEADERSHIP & GOVERNANCE
Our work targets engaging the Community of Zvishavane and Shurugwi-Zvishavane. We also work around Leadership grooming for Adolescents and Governance to facilitate Girls and women are leaders and decision makers.

ECONOMIC & FINANCIAL LITERACY
Economic empowerment and financial independence is an important aspect to us. We conduct trainings and seminars that seek to educate our Girls & Women. We also have projects that are focused on livelihoods and entrepreneurship.

EDUCATION & SKILLS DEVELOPMENT
Emancipation emanates from self discovery, development and growth. Our work, projects and initiatives are focused on providing a second chance of going back to school, skills development as well as Digital development as a major skill.

CLIMATE & ENVIRONMENTAL JUSTICE
We work towards being environment friendly and our principles are grounded in recycle, reuse and paperless system. We also led agro-based initiatives that seek to Foster a sustainable environment & protects our Ecosystem.
**SRHR PROJECTS**

### 16 DAYS OF ACTIVISM AGAINST GBV

In commemoration of 16 Days of Activism against Gender based violence we joined hands with various local stakeholders in curating speak out series. It’s a panelist oriented series as guests speak on their experiences, work they are doing and how to address GBV and all forms of violence against Girls and Women in Zvishavane. During the series 5 episodes were recorded, 3 dialogues curated and 101k social media impression.

### VAGINAMONOLOGUE

The idea behind the Naked Conversations was to give women and girls a platform where they could openly express themselves and encourage one another. Every last Thursday of the month, live sessions are organized; they are based on real women's tales so that girls and women who hear the stories can realize they are not alone in their experiences. By using a storytelling and experience-sharing approach, it aids those who have experienced violence in healing, overcoming obstacles, and finding strength in challenging circumstances. It does away with the stigma that is frequently attached to the word “vagina” and the vagina itself in favor of celebrating both the word and women. Instagram -@womandlafoundation

### PASI PEMUTI TALK

The Pasi Pemuti presentations are safe, enlightening, and safe spaces. we engage in debates, trainings, theatrical development etc. Pasi pemuti discussion, which roughly translates to “Under the Tree talks,” is a traditional practice that we feminized adopted as a way to convene in an open, liberated environment in order to break free from the walls and boundaries that surround us. Our topics vary under the SRHR Banner.

### FOR US GIRLS & WOMEN

FOG takes into account the socio-legal, health, and gender contexts when tackling issues such as access to mobile health services, the legal protection of sex workers. We've had training sessions with sex workers and other stakeholders where we've talked about subjects like sexual abuse and how victims are frequently harassed, mistreated, and treated indecently by law enforcement and the community. Sex workers sell sex and run the risk of being sexually abused, harassed, exploited, stigmatized, and discriminated against.

### #SHESPEAKS

She Speaks is the Pan-African movement to unleash the innate power of African Adolescent girls. #SheSpeaks is an indigenous African movement designed and mainly led by adolescent girls themselves. It addresses the societal barriers that impede on their holistic development. These adolescent girls are grounded in their African identity and mindful of their inherent capabilities and dignity, will be the drivers ofica’s social transformation. The objective of the Pan African Girls Movement is to have girls shape a future of a new order of equality, social justice, and freedom of choice.
